Bug Fixes and Enhancements

The list below represents a summary of items addressed in IQS V7.1.1

Ticket ID	Bug Fix/Enhancement Description	IQS Module
7161/ 10269	Fixed issue where the paging/sorting on Post Incidents page would change when navigating to the Post Experience page from the link then returning back to the Post Incidents page from the "Return to Incidents" link.	Post
10182	Fixed error that caused "IQS Processing" message to show indefinitely when adding a qualification to a person with invalid refresher training or fitness.	CertQual
10203	Improved the usability of the Person integration conflicts resolution screen	IRWIN
10208	Fixed issue that caused "Duplicate Taskbook" error to appear when no duplicate exists	CertTaskBk
10235	Fixed issue when adding a new person where the green background for the required field Email Address disappeared when a Station Address was chosen.	PersonOrg
10239	Added Birthdate, HomeUnit, IsQuarantined, IsIntegrationPerson, ProviderUnit, and HomeDispatch columns to the export data utility	Export data
10255	Compact qualifications now ALWAYS ignore fitness	Certifications
10257	Added Hazard Type when sending qualification updates to IRWIN	IRWIN
10263	Activated the no refresher indicator for COMT	PersonOrg
10271	Changed the default for the "Display Email Addresses in appendix" checkbox to unchecked for all reports (Master Record, Update Information, Qualifications to Expire, Persons Qualified, Task Books to Expire, Open Task Books, Course Roster, Refreshers Needed, Course Roster History, Not Take Course)	General
10278	Fixed issue where certain courses that contained the string "S-200" would not display the correct course equivalency when creating a master record report.	Reports
10283	Reordered the incidents on the Post > Incidents/Experience page from newest to oldest.	PostExp
10290	Manager and data manager can now delete and rename attachment files.	Attachments

10298	Made "Fitness" a required field for Reference Data > Jobs. Blank is no longer allowed.	Incident Qual Card
10302	Prevented the experiences from non-IQS IRWIN resources from being imported into IQS.	IRWIN
10306	<ul style="list-style-type: none"> Fixed issue where certain IRWIN errors would cause the "IQS Processing" notification to display indefinitely, and notified the user when adding a duplicate user to IRWIN was unsuccessful due to an unresolvable integration conflict. Fixed issue where updating a person's middle name to blank would not update the value in IRWIN. 	PersonOrg
10310	Added a popup on the person/org page and a page (Integration > Integration Resource Data) to view a person's integration (IRWIN) data	PersonOrg
10311	Fixed issue where IQS was not setting a person's capabilities inactive when the person is un-integrated with IRWIN. Added an automatic synchronization hangfire job and manual synchronization for both individual persons and all persons.	IRWIN
10327	Implemented change to update the manager contact info for all integration users in IRWIN when the record manager is changed.	IQS Web Settings
10337	Fixed issue where IRWIN General Status value was being set to available from unavailable when a resource was modified in IQS	PersonOrg
10342	Fixed issue that prevented clearing middle name in IRWIN.	PersonOrg
10343	Added popup menu to resolve adding resources that are exact duplicates of those already existing in IRWIN	PersonOrg
